W. P. A. PROJECT No. 2865 PINELLAS COUNTY NEWSPAPER INDEX Pinellas County, Fla.

SPONSORS

THE Pinellas County Newspaper Index was sponsored as a Project of The Works Progress Administration of the United States Government by the Board of County Commissioners of Pinellas County, Florida.

Co-SPONSORS were the City of St. Petersburg, The St. Petersburg Independent, The St. Petersburg Times and The Clearwater Sun.

Many corporations and citizens of Pinellas County have co-operated also, making donations of materials and labor and in the loans of equipment needed throughout the progress of the work. This co-operation has been reported through the progress of the Project under the general heading, "Citizen Co-operation."

T HE staff began its work on the Index on March 14, 1938, and concluded the indexing, binding and art treatment of the volumes early in June, 1939.

HOW TO USE THIS INDEX

The months of the year are abbreviated in this Index as follows:

January	Ja
February	F
March	M
April	Al
May	My
June	Je
July	Jl
August	At
September	S
October	0
November	N
December	D

The following is a sample of the Index at the end of each entry: 1-4; Jl 3, 1916.

Explanation of this Index: The first figure (1) is the number of the page of the newspaper from which the entry is made; the second figure (4) is the number of the column in the newspaper; then comes name of the month; then the date and the year.

The following is a sample of an entry with its Index: Florida Association Farms at Pinellas Park have cabbage, turnips and rutabagas ready for market. 3-4, Al 2, 1912.

Every page carries the name of the newspaper from which the entry is made and the main topic, such as agriculture, science, industry. The item above is on a page of the chapter on agriculture. The reader of this Index will thus know that the item above is in the chapter on agriculture, St. Petersburg Times, third page, fourth column in the issue of April 2, 1912.

In all chapters, carrying the main topics, the entries for the three newspapers, St. Petersburg Times, St. Petersburg Independent and The Clearwater Sun, are classified separately; but they are bound in the same volume except the chapters on City Government.

THE APPENDIX

Enlarged entries are presented in the Appendix. Throughout the other volumes of this Index the reader's attention is directed to the volume and page of the Appendix for these extended transcriptions.

ROAD PROGRAM IN PINELLAS COUNTY 1922

The Pinellas County Board of Commissioners vote in favor of a \$2,500,000 program for good roads

J. P. Lynch and R. H. Sumner, County Commissioners from St. Petersburg, voted against the bond issue for widening trunk lines and laterals

The Rotary Club, Chamber of Commerce, Civitan Club and Women's clubs of St. Petersburg had gone on record as opposed to the larger issue

The bond issue of \$2,500,000 calls for reconstruction of approximately 44 miles of trunk lines to a width of 18 feet, and 59 miles of laterals or connecting road.

The laterals will be from 9 to 24 feet wide

The Gandy Bridge Road, south Fourth street, Pinellas drive, Tangerine avenue, Maximo road and Lakeview avenue, included in big bond issue

Main trunk lines proposed are: St. Petersburg via Largo, Clearwater, Dunedin, Sutherland, Tarpon Springs, to Pasco county line, 26.4 miles long; Clearwater via Safety Harbor, Oldsmar, to the Hillsborough county line, 11.45 miles; road from four corners at Sutherland to intersection of the Clearwater-Oldsmar road, 5.93 miles long

ROAD PROGRAM IN PINELLAS COUNTY 1922 (Continued)

Lateral Roads proposed are: Gandy Bridge road from St. Petersburg to the southwest end of Gandy bridge, 5.6 miles long, 24 feet wide; road from Dunedin via Bayshore boulevard, Ozona to Sutherland, 6.2 miles long, nine feet wide; road from Sunset Point East via Constantine place, Nickle's corner to Coachman depot, 4.7 miles long; nine feet wide; road from Oakhurst to Indian Rocks, five miles long, and from Indian Rocks to Largo, re-construction, 10 miles, nine feet wide

West Lake Butler road, from brick road running east to Tarpon Springs to trunk line, 5.5 miles long, nine feet wide; Chelota road, Tarpon Springs west one half mile, nine feet wide

Roads proposed in lower Pinellas are: Fourth street St.

Petersburg, south, reconstruction, two and three-fourths
miles, 16 feet wide; Point Pinellas road, from Fourth
street to Maximo road, two and one-half miles long, nine
feet wide; reconstruction of Maximo road, three and one-half
miles, 10 feet wide; reconstruction of Lakeview avenue,
three and one-half miles, 16 feet wide; reconstruction of
Tangerine avenue from Ninth street to Maximo Road, one and
one-half miles, 16 feet wide; new construction on Tangerine
avenue, one and one-half miles from Maximo Road to Disston
avenue, nine feet wide; road from intersection of the Haines
Road and the Ulmerton boulevard, east four miles to Section

PINELLAS BUYS ROAD EQUIPMENT 1922

Pinellas County acquires \$100,000 road-building equipment.
Report on road funds expended by commissioners.

The roads department now owns the following road making plant: Four three and one-half ton F. W. D. Army trucks; three three and one-half ton Liberty trucks; five two and one-half ton Mack trucks; two two and one-half ton Kelly-Springfield trucks; three one-ton International trucks and one one ton Ford truck

The county has also three Adams road graders and scarifiers; one giant Adams grader and one 60-horse power C. L.
Pest caterpillar tractor; steam rollers; tar heating kettles;
small road scrapers etc

The market value of the trucks was originally \$64,200, but the Government sold them to the county for \$17,650. The tractor cost \$9,000 and the state paid one half. The total equipment has a market value of \$1000,000, but the cost to the county was \$48,950

The 18 trucks have a daily hauling capacity of 540 tons on an average haul of two miles. The tractor and grader under favorable conditions can build a mile of road a day and make it ready for travel. It will do the work of 200 men at a cost of \$36 per day and the machinery outfit as a whole will do as much work in eight hours as 12 mules could do in 12 days

MURPHY ACT COSTS PINELLAS \$1,306,453

The Murphy recovery act costs Pinellas county \$1,306,453 in taxes in the first year of its operation, says William Crawford, chief clerk for Ray E. Green, Clerk of the Circuit Court

The report covering the first year of sales showed the settlement of \$1,326,477.79 in taxes for \$20,023.88

While the various branches of the government lost more than \$1,000,000 in taxes, the taxpayers who took advantage of the act benefited to that extent

During the first year's sales there was 17,903 certificates on delinquent tax property sold

One redeeming feature of the Murphy act, as pointed out by Chief Clerk Crawford, is that all property on which the taxes were redeemed during 1937, totaling more than \$465,000, will be back on tax rolls for 1938

Tax certificates, some representing several hundred dollars, were redeemed at an average of slightly more than \$1 a certificate, not including the clerk's costs

The act became effective in July, 1937, when the clerk settled \$179,293 in taxes for \$3,086. An increase was shown the following month but the sales dropped heavily in September when the validity of the act was questioned in court

The report covering the sales by months for the first year follows:

COUNTY HOME REPORT YEAR ENDING MAY 31, 1938

Superintendent William Gardner reports costs for operation of County Home total \$34,578 for the year ending May 31, 1938

Operation of the Pinellas county home, during the year ending May 31, cost the county \$35,370, according to the annual report of William Gardner, superintendent, submitted to county commissioners

The commission had placed \$34,578 in the budget for the year's operation. Of this amount, \$25,000 came from race track funds and \$11,398 through the levy of three-fourths of one mill in taxation

Enrollment at the home increased from 107 on June 1, 1937, to 119 in May this year. On one day there were 121 guests in the home.

Salaries during the year totaled \$11,686; food bill, \$11,800; drug bill, \$4,842; and general expense \$7,062.

It was estimated by the superintendent that the cost per inmate for each month was \$26.62. The average number of guests in the home was $111\frac{1}{2}$

The tubercular hospital, expenses of which are included in the general report, cost \$8,961 or an average of \$33.20 for each patient. The hospital cared for an average of $22\frac{1}{2}$ patients monthly during the year. Salaries totaled \$2,594; food, \$3,969; drugs, \$1,720, and supplies, \$614

PINELLAS COUNTY HOME COST FOR YEAR 1938

The cost of operating the Pinellas County Home near Largo for the fiscal year through May, 1938, is given in a report by Superintendent William Gardiner, as follows:

It cost the county \$35,370.86 to operate the county home for the aged and indigents during the fiscal year through May, according to Supt. William Gardiner. The big items were salaries, \$11,686.11; food, \$11,800.45; drugs \$4,842.14; and general expenses, \$7,062.13. The number of inmates ranged from about 100 to 121, with an increase from 107 in June, 1937, to 119 in May, 1938.

The annual cost topped the amount budgeted by commissioners, \$34,578.49, the bulk of that amount coming from race track revenues paid out by the state.

COUNTY EXCESS FEES FIRST HALF OF 1938

Excess fees of county officers reached new high peak for the first half of the year 1938, according to figures published in The Evening Independent of St. Petersburg July 16, 1938

Excess fees earned by the clerk of the Circuit Court for the first half of the year are \$23,733 compared with \$19,359 for the first half of 1937. The clerk was compelled to hire many additional workers to handle this increase.

Fees from administration of the Murphy or land recovery act during the first six months of 1938 sent the clerk's revenues up; but the act also forced the clerk to spend several thousand dollars in employment of special workers to prepare reports on sale of tax certificates. The tax redemption department in the clerk's office led the courthouse in revenues with \$32,435.47 during the first half of 1938 ending June 30, while salareis paid by the clerk totaled \$35,187.35 to top all offices

All excess fees have been filed with the exception of those for the County Judge. Each of the officers filing these excess fees receives annual salary of \$7,500. The excess fees from the various offices are as in the following tabulation, the figures shown being without cents:

BELLEAIR BUDGET FOR YEAR 1939

Belleair Town Commissioners adopt a budget of \$29,060, based on assessed valuation of \$2,707,596 for the year 1939. Details follow:

The mill rate is entirely for operating expenses, as Belleair has no debt service levy. Attending the meeting were Dr. E. E. Reed, mayor, Commissioner George Gillespie, and Mrs. Josephine Smith, city clerk

The largest single item of expense is \$9,000 for salaries. The next largest item is \$8,000, budgeted as part payment of an original \$34,000 debt to six Belleair residents who advanced this sum last December enabling the town to make a bond transfer that saved taxpayers an estimated \$107,000. Interest on the loan, amounting to \$1,690, that will come due in 1939, is also budgeted

Included in the budget is an item for a \$400 radio to be installed in a police car and an \$800 item for the car itself, both of which the town expects to purchase in the near future

Belleair's approved budget is as follows:

Salaries

\$ 9,000

Gasoline and oil

1,000

TAX APPORTIONMENT BY COUNTIES 1923

Proportion of tax paid by counties in Florida and their resources is shown in the Evening Independent of August 21, 1923

Thirty-nine counties in Florida north of a line drawn from the mouth of the Suwannee river along the southern boundaries of Dixie, Alachua, Putnam and St. Johns counties pay 39 percent of the taxes, according to the assessed valuations of 1922 as shown by the State Comptroller's report. These counties have 52 percent of the population, as shown by the census of 1920, or 514,000 out of the total of 988,470

The northern tier of counties has the Girls' Reform
School in Marion county; the University of Florida at
Gainesville; State College for Women and the A. and M.
College for Negroes at Tallahassee; State Hospital at
Chattahoochee; Boys' Industrial School at Marianna and
the Deaf and Dumb Institute at St. Augustine. Pensacola,
in the upper area, claims to have the finest port in the
United States south of Newport News

These 39 counties produce 80 percent of State's oysters; 88 percent of its cotton; 80 percent of its pecans; 97 percent of the tobacco and more than half of the corn

SHELLFISH COMMISSION REPORT FOR 1921-22

Production of shellfish in Florida waters for the years 1921 and 1922 shows a total of 116,915,000 pounds, according to report of Commissioner T. R. Hodges of the state department. Details follow

The most valuable of all natural resources in Florida are the salt water fish, oysters and sponges. This vast industry extends approximately three thousand miles along salt waters of the East and West Coasts of Florida

Shrimp shipped and canned amounted to 19,552,000 pounds; 190,000 barrels of oysters were shipped and canned during the two years; 9,206,000 sponges were marketed during the same biennial period

The approximate value of the combined industry to the state is \$28,563,000 for the years 1921 - 1922

The department operated on revenue from licenses and taxes, collected from those engaged in this business

The department reports as follows

FOREIGN AFFAIRS REVIEW FOR 1916

- Events of importance in foreign affairs are compiled by E. Z. Pickard and published in the Evening Independent of January 1, 1917. The summary follows:
- FEB. 1. Yussuf Izzeddin, crown prince of Turkey, committed suidide
- MAR. 22. Official mandate announced abandonment of Chinese monarchy and resumption of republic, and rejection of emperorship by Yuan Shi Kai who resumed presidency
- APR. 18. Sir Roger Casement captured and German ship sunk while landing arms in Ireland for uprising
- APR. 24. Sinn Fein rebels seized parts of Dublin and serious fighting followed
- APR. 30. Main body of Irish rebels surrendered
- MAY 2. President Jiminez of Dominican republic impeached
- MAY 3. Pearse, Clark and MacDonagh, leaders of Irish revolt, executed
- MAY 5. Fighting broke out in Santo Domingo; American marines landed
- MAY 12. James Connolly and John McDermott, Irish rebels, executed
- JUNE 6. Yuan Li Hung became president of China
- JUNE 29. Casement convicted of treason and sentenced to death
- JULY 1. U. S. marines routed 250 Santo Domingo rebels, killing 27 and losing one man
- SEPT. 20.- China appealed for aid for million people driven out by great floods
- SEPT. 30. Emperor Lidj Jeassu of Abyssinia deposed; Ouizero-Zeoditu proclaimed empress of Ethiopia

FOREIGN AFFAIRS REVIEW FOR 1916 (Continued)

- OCT. 4. Gen. Count Terauchi made premier of Japan
- OCT. 21. Count Carl Stuergkh, Austrian premier, assassinated by Vienna editor
- OCT. 24. Two American officers killed by Dominican rebels
- NOV. 22. Karl Franz proclaimed emperor of Austria-Hungary
- NOV. 29. Capt. H. F. Knapp, U. S. N., commander in Santo Domingo, proclaimed a military gavernment of that country
- DEC. 4. Pope created ten new cardinals
- DEC. 14. Denmark voted to sell Danish West Indies to United States

Edmund Schulthess elected president of Swiss confederation

PERRY SNELL DEVELOPMENT IN NORTH SHORE

Perry Snell begins development of \$150,000 project in the North Shore section of St. Petersburg as reported in The Evening Independent of St. Petersburg December 19, 1922

A contract is awarded by C. Perry Snell to
W. H. Pheil, to dredge in Coffee Pot Bayou, where
Snell plans extensive north shore development,
total cost of which is estimated at \$150,000

Pheil owns a large tract of property between Locust and First streets, and Twenty-first and Thirtieth avenues, known as "Johns Pass Road"

The dredge will fill in the waterfront lots 3 feet high behind sea walls; widen the channels in the yacht basin; cut a canal via a chain of lakes from Coffee Pot Bayou into Smacks Bayou, a distance of half a mile. The canal will be at tidewater level and 30 feet wide, plotted between two golf courses on the North Shore. This canal has outlet to the waters of Tampa Bay, every lot or plot on the bay, the canal, lagoon or bayou thus having tidewater frontage

PERRY SNELL DEVELOPMENT IN NORTH SHORE (Continued)

A large boat livery for Coffee Pot Bayou section with canoes and rowboats for hire, is to be constructed

MADAME CURRIE VISITS AMERICA 1921

Madame Marie Currie, co-discoverer of radium, arrives in New York to visit America in connection with additional research

Madame Marie Currie, distinguished scientist, upon her arrival at New York, May 11, 1921, was asked if radium is an actual cure for cancer and her reply was, "Yes it is. That is, if it is applied properly."

Madame Currie is the first woman to occupy a chair as professor at the Sorbonne. Upon arrival in New York she was greeted at the pier by representative of the Marie Currie Radium fund and leading scientific organizations, more than 100 persons from Polish societies of New York, Chicago and Pittsburg. Madame Currie was accompanied by her two daughters

Mrs. William Brown Meloney chairman of the Marie
Currie radium fund, accompanied Madame Currie and two
daughters on her voyage to America.
They were Mrs. Meloney's guests in New York. From
New York Madame Currie went on to Pittsburgh, where
radium is extracted

May 20, 1921, President Warren G. Harding presented to Madame Marie Currie one gramme of radium worth \$100,000. To obtain one gramme of radium the reduction of 5,600 tons of ore by the most painstaking

Madame Marie Currie, who in 1898 discovered radium, often called "the realization of the dream of ancient alchemists, " was born in Warsaw, Poland, November 7. 1867. Her father was Professor Sklodowska, an instructor in physics and chemistry in the University of Warsaw. Before entering upon her professional career as a scientist she worked in his laboratory. Madame Currie received the Nobel prize in 1903

Madame Currie married Piere Currie in 1896. He was professor of general physics in the University of Paris. Some years later professor Currie was struck by a wagon in Paris and killed. Madame Currie succeeded to his professorship

The discovery of radium enriched many persons throughout the world. The conservative estimate of lives saved during the World War was 50,000. Madame Currie has devoted 53 years to the study of radioactive substances. She is comparatively a poor woman to-day

Madame Marie Currie gave her secret to the world

MADAME CURRIE VISITS AMERICA 1921 (Continued)
and declared "it was not to enrich anyone; but for
all people" and their welfare

Madame Currie's visit to America is primarily for the purpose of investigating "pitchblende" deposits in Colorado, Utah, Pennsylvania, and other states

Dr. Robert Abbe, New York, who worked with Madame Currie in her laboratory in Paris, declares no other woman had ever pursued a trail into an unknown jungle and brought to light such an "unsuspected" new factor to influence science

Professor Roentgen, a German scientist, announced his discovery of the x-ray in 1895. These rays possessed the property of emitting radiations of a special character, with power to penetrate through matter opaque to ordinary light. A year later H. Becquerel, a French scientist, observed that certain uranium preparations emitted rays resembling those discovered by Professor Roentgen. Becquerel rays became the new wonder and by delicate tests were proven to be electrical

Thus began the search for the new element and every form of uranium in laboratories was tested.

Madame Currie at this point diverged from the search

of other chemists. She went to Carlsbad, where pitchblende was mined for a century for the extraction of uranium in making Bohemian glass and beautiful dyes. Around the mines she found 50 tons of refuse. Analysis showed a new element four time as strong as Becquerel's rays eminating from uranium. Madame Currie, by long and tedious process extracted lead, silver, tin, bismuth and other metallic substances from the pile of refuse. She then refined the mass until the residue was 60 times more concentrative than uranium

MADAME CURRIE VISITS AMERICA 1921 (Continued)

This small remnant glowed in the dark. All but two metals had been eliminated. These were known not to have the slightest radio-activity. Therefore, there could be but one conclusion: Madame Currie was facing a mysterious new force. Two years later she was able to announce the discovery of radium and her method of extracting it from ore

WAR DEPT EXPERIMENTS WITH BLACK LIGHT

The United States War Department experts experiment with the so-called "black light," invisible light rays which are believed to indicate an important discovery in science

Black light is the name given to light rays of greater wave length than those at the red end of the spectrum, or lesser length than those at the Violet end. The construction of the eye is such that these rays make no impression on the optic nerve and they are therefore invisible under ordinary conditions. They are of greater wave length than the rays of any candle, lamp or other source of light and scientists have devised unquestionable method of determining their presence

New signalling apparatus experiments thus far conducted with the rays by Army General Squire, it is said, have dealt primarily with devising suitable apparatus for utilizing "black light" in signalling. Their possibilities are not limited to signalling alone. The soundness of the principle has been demonstrated beyond doubt, it is reported

A "black light" signalling system is likened to

the heliograph used in the army. Further advantage lies in the fact that unlike the heliograph, the "black light" rays can be generated artificially and are not subject to weather conditions
